

Fact Sheet: Dixon Recovery Roads Repairs

City of New Orleans
Department of
Public Works

Project Summary:

The City of New Orleans will implement a multi-million dollar, multi-year comprehensive infrastructure improvement program to repair Hurricane Katrina related sub-surface and road damages. Types of repairs deemed eligible for improvement by FEMA include utilities, sidewalks, American with Disabilities Act compliant ramps, driveway aprons, curbs and road paving.

Project Facts:

Phase I: Between 2008-2009, the City of New Orleans performed citywide repairs to approximately 17,000 damage sites at an estimated cost of \$55,200,000. The total cost of Phase I repairs completed in the Dixon area totaled approximately \$447,000.

Phase II: The Dixon Recovery Roads program will include multiple construction repair projects with a total estimated value for roadway improvements that is approximately \$4,600,000. The project is currently in design and is being closely coordinated with the Sewerage and Water Board of New Orleans. Dixon The project timeline is under development. Road resurfacing work will be limited in some areas of Dixon. Completion of subsurface utility line improvements such as sewer and water lines will take place prior to road repairs.

What to expect during construction:

Residents and businesses in Dixon should exercise caution when driving, bicycling or walking near active construction sites. Residents can expect to experience temporary construction inconveniences such as limited access to areas within the construction zones, detours, movement of heavy equipment, safety signage and sounds.

In general, construction crews will be working from 7 a.m. to 5 p.m., Monday through Friday. The Dixon engineering and design firm is CDM Smith. The construction contract is scheduled to be available for bid in the 4th Quarter of 2019.
